

Total turn key solution for all your  
outdoor seating needs

# Terrace Garden

Now is the time to realise your dream of having a beautiful terrace with natural surrounding minus the maintenance. The use of WPC (Wooden Plastic Composite) as our base material for all the wood feel surfaces makes it possible to achieve the desired effect.

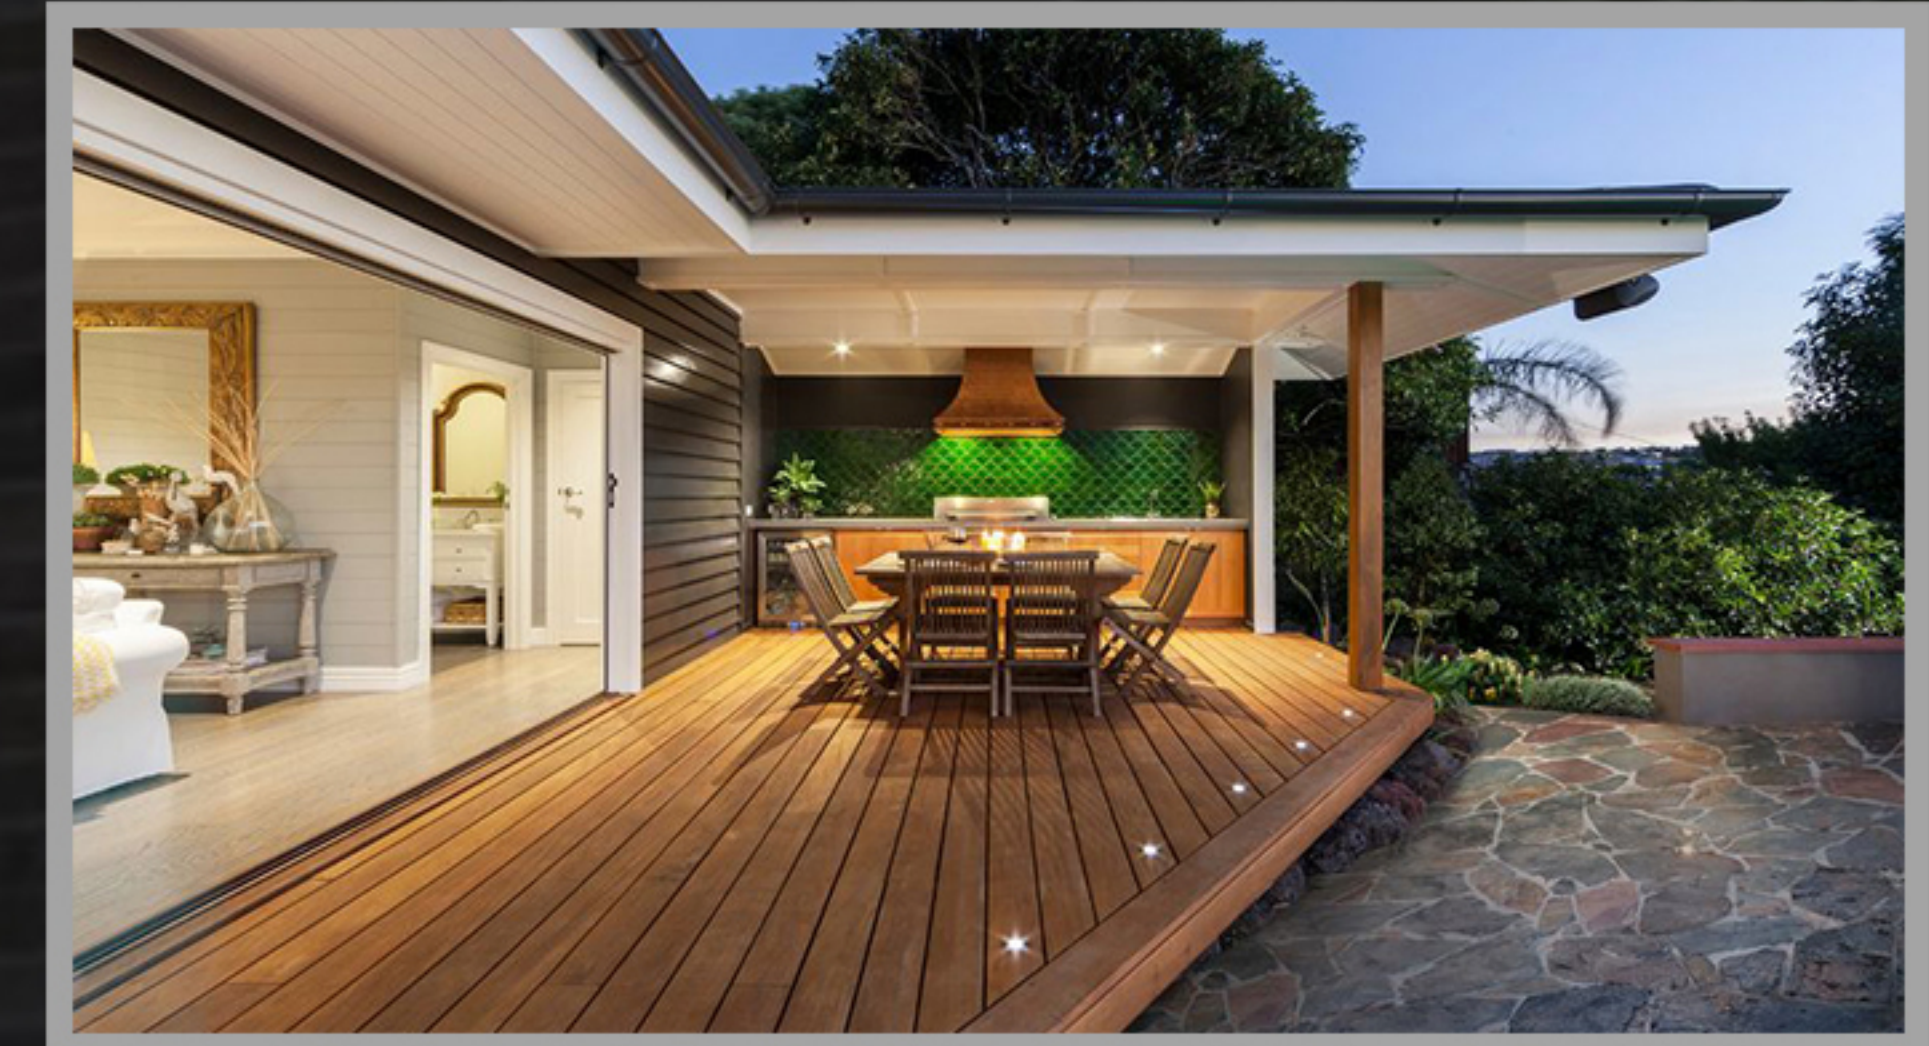

Outdoor seating furniture made out of light weight non corrosive aluminum frame & Cladded with outdoor quality cane gives a long lasting impression. Various combination, design & colours are available to suit all needs.

Green Cover in its natural feel is achieved by placing artificial maintenance free Grass Carpet over the existing floor combined with aesthetically laid out proportion of Decking.

Bar Counters made in WPC material with wooden texture give a very authentic feel combining with utility and functionality.

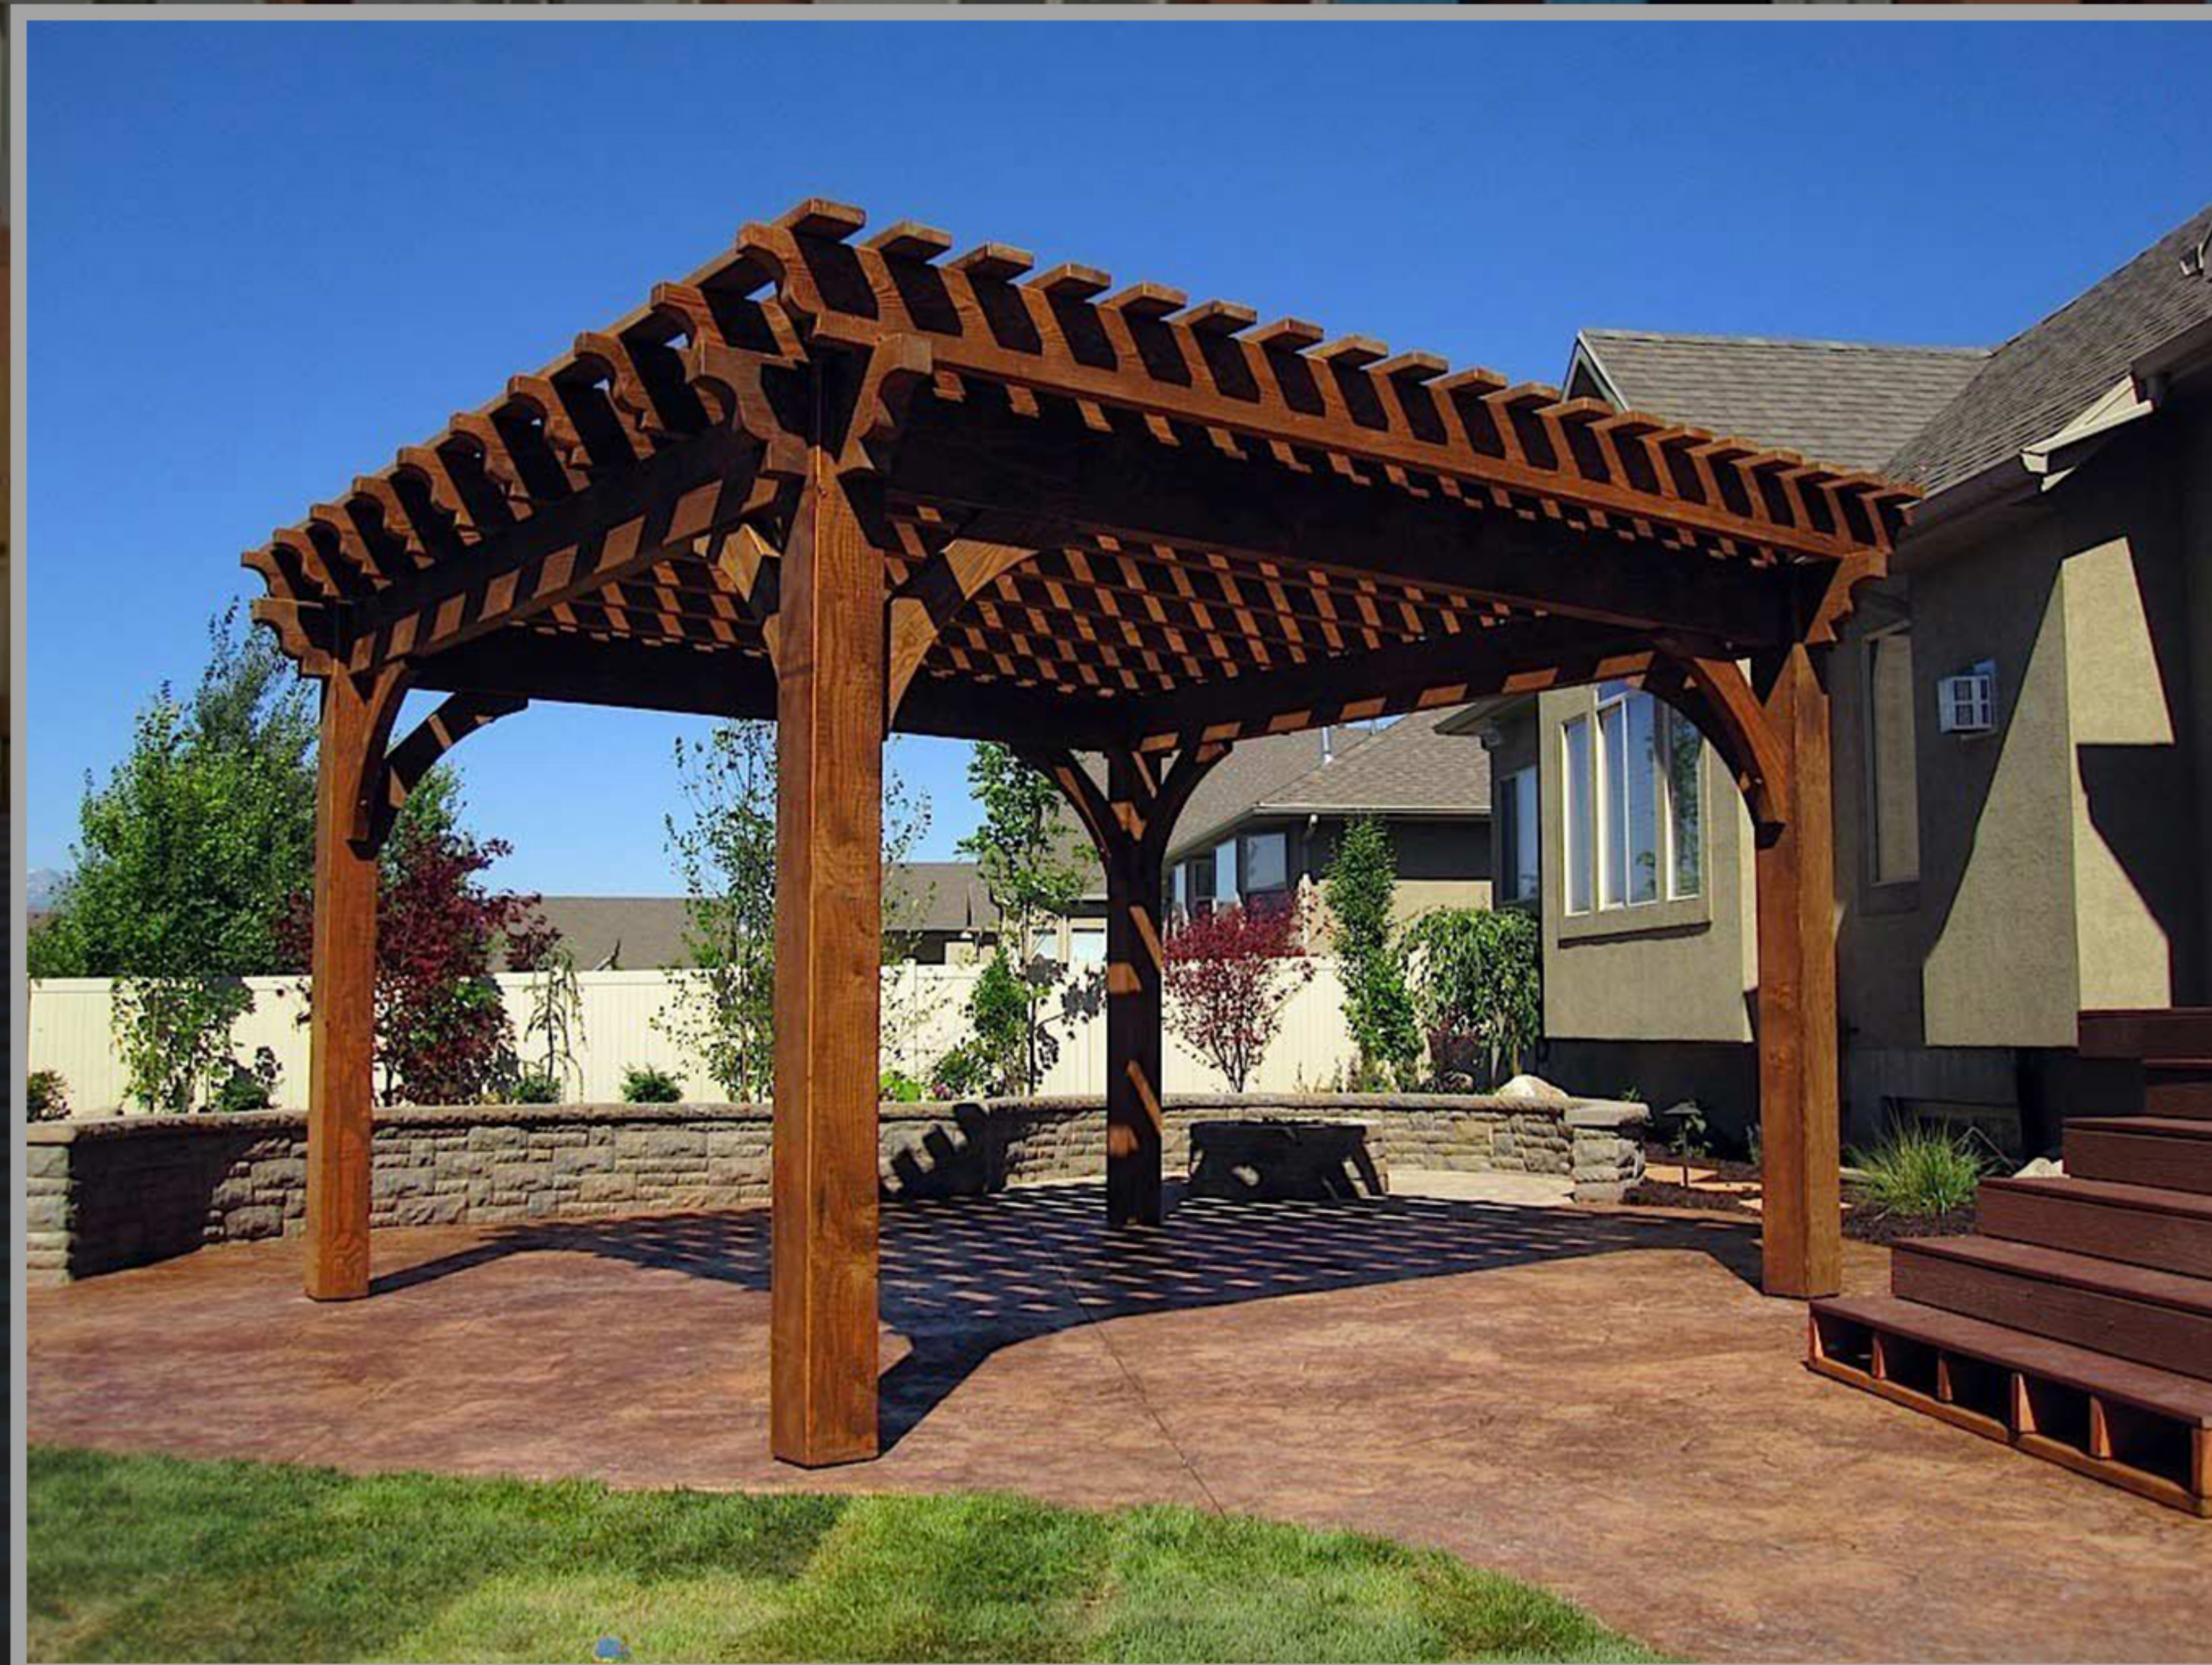

An outdoor free standing Umbrella gives a very useful area under its shade. Various options in frame are available in metal and wood finish.

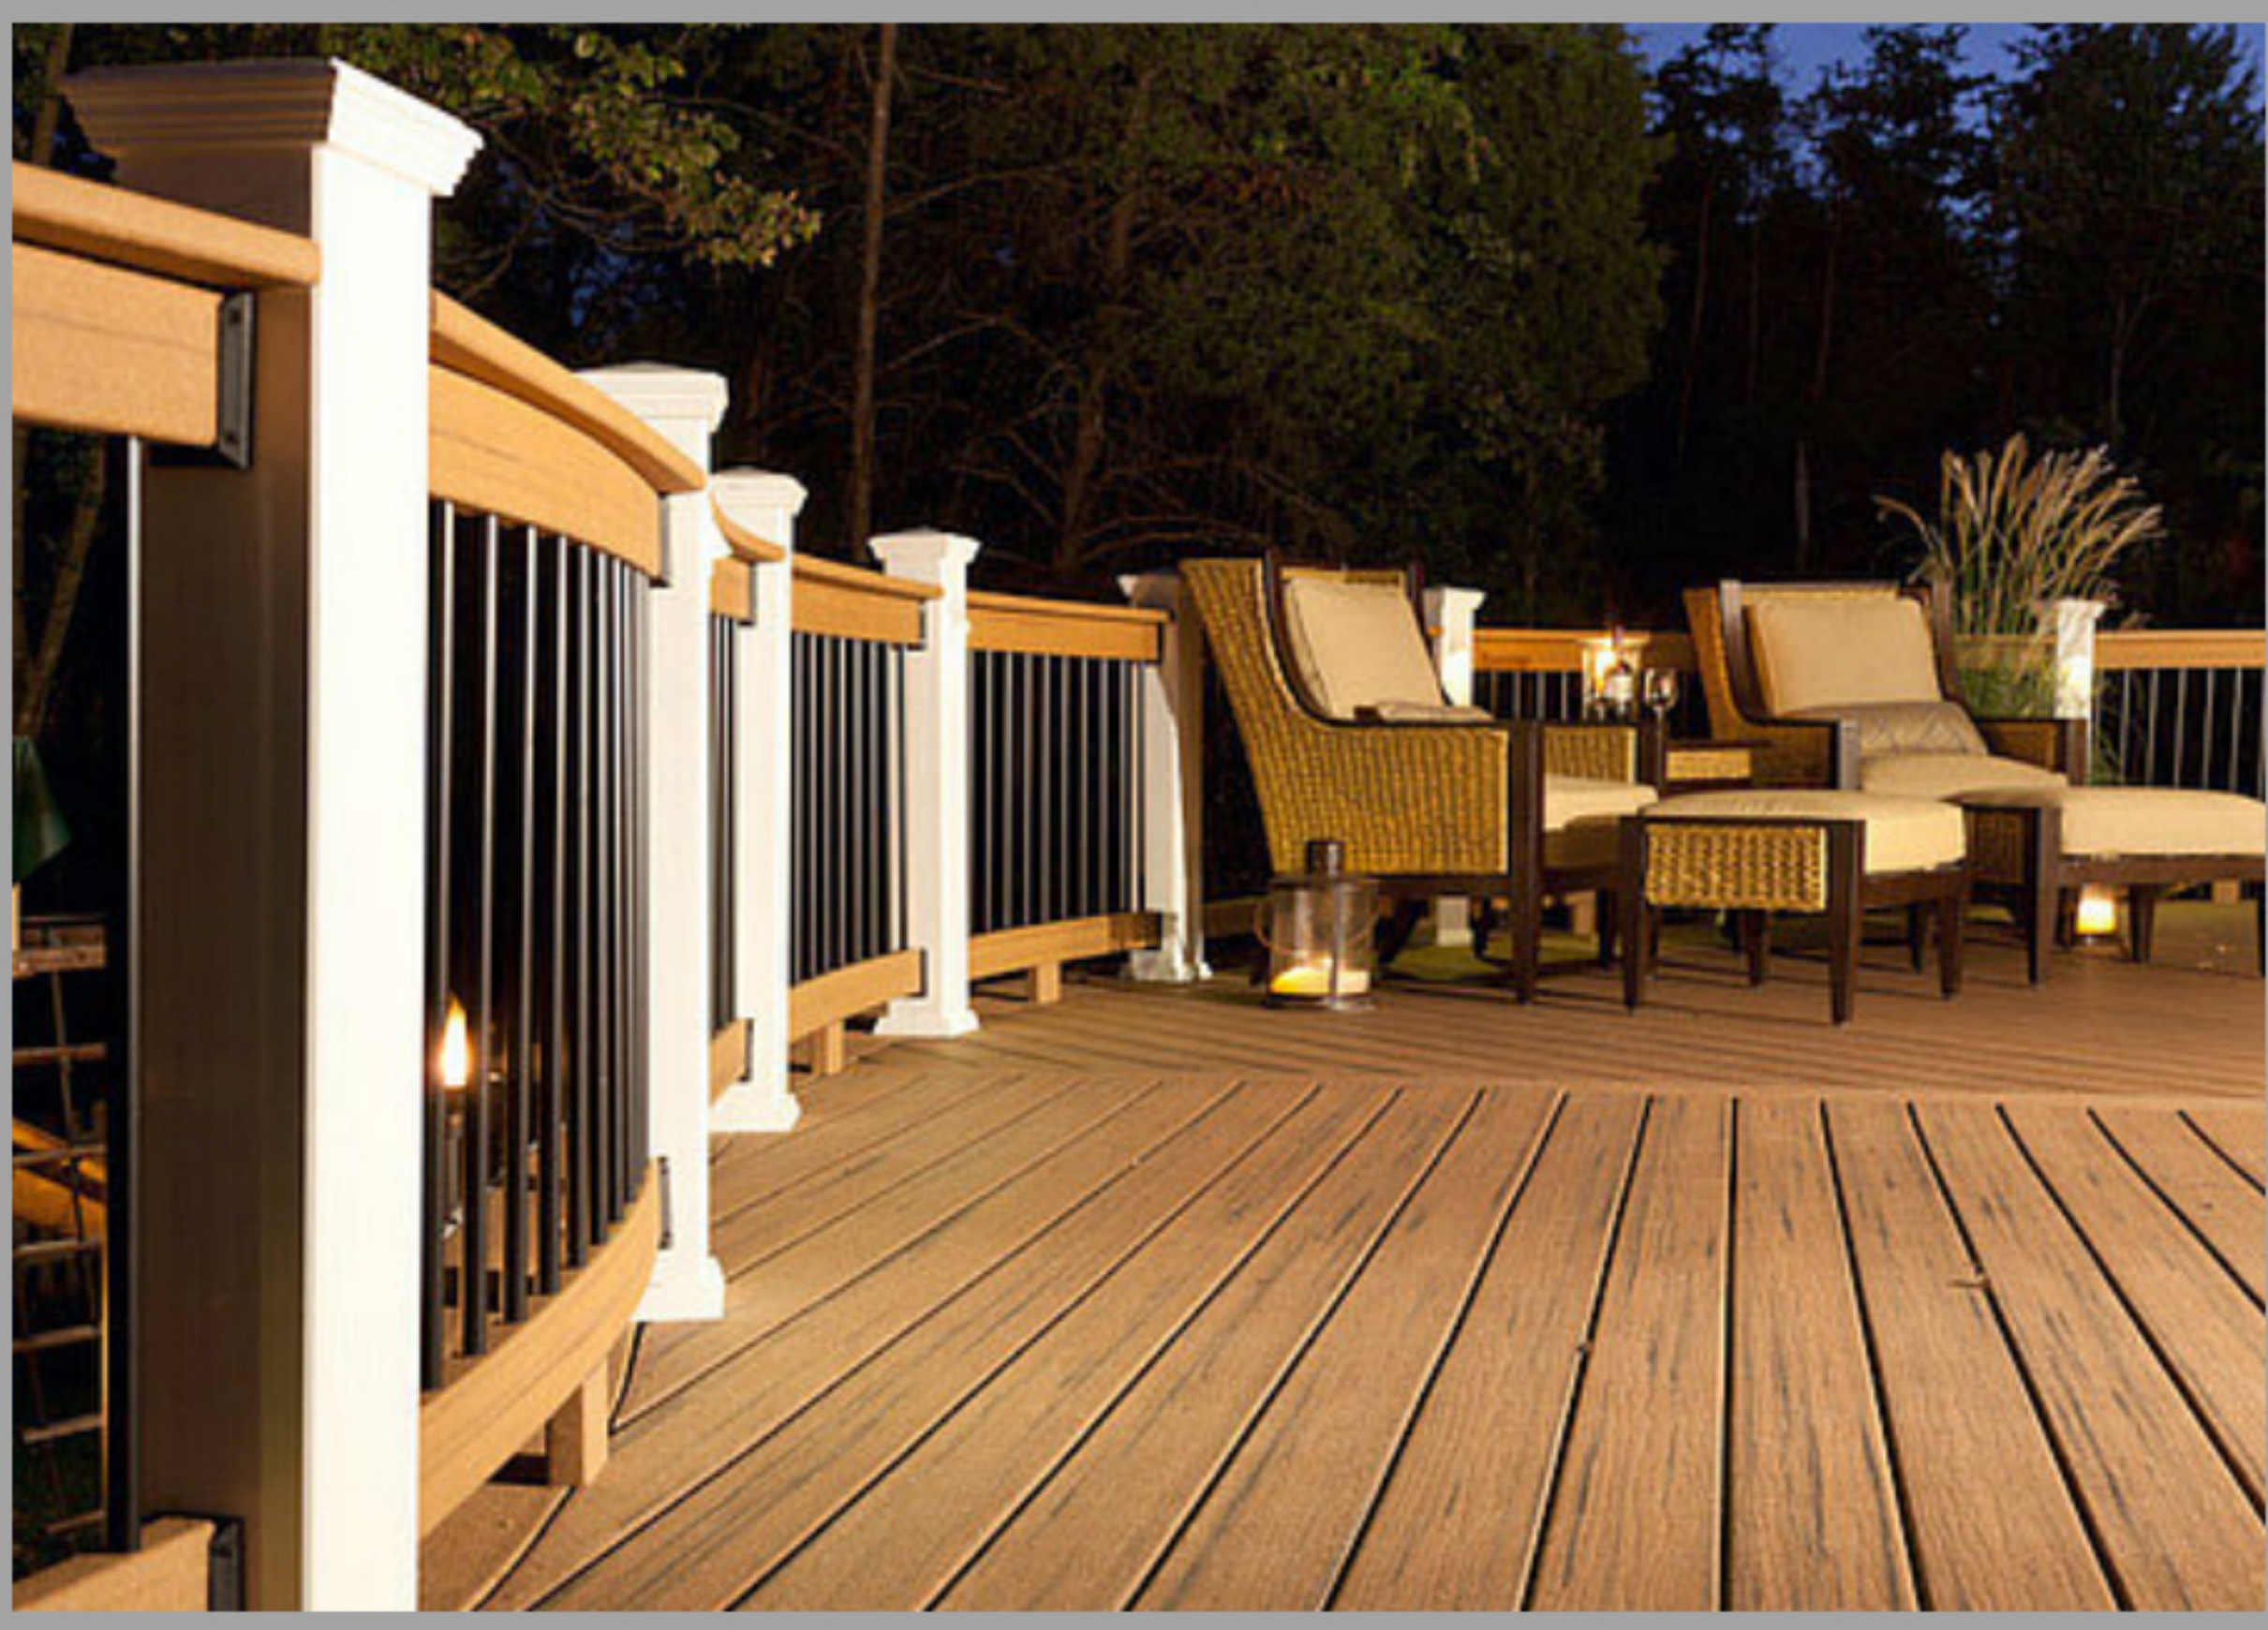

# Pergola & Gazebo

A cosy demarkation of a semi covered portion made out of wood feel WPC gives a very dignified feel to the landscape. Various combinations, shape & size can be worked upon as per requirement. Outdoor seating calls for various essentials such as bar counters, sofa, chair seats , umbrellas & fountains. All these are made out of maintainance free material & have heavy resistance to the harsh weather.

# Decking

The floor of terrace in wood feel planks made of WPC gives a warm feeling. They are easy to install & maintain & can be used over the existing floor. It is widely recommended for terraces swimming pools, outdoors courtyards etc.

# Cladding

Cladding for walls & portion wood feel planks can also be used for external elevator.

Our in house team of fabricators & Designers can give you an end to end solutions for your outdoor space, Be it your farm, terrace, swimming pool etc. It can be designed & executed without any hassles with our inputs & coordination. We use maintenance free natural looking material i.e. WPC , artificial grass & plants along with aesthetically placed, lighting, backed with electrical wiring & conducting.
